

DrNano™ is a ready to use formulation for indoor application consist of pure silver nanoparticles in water solution. The Silver Nanoparticles are used and known for its anti-bacterial, antiviral, fungicidal effects and is effective in killing a wide range of other pathogens. The product is a balanced formulation of stabilizers and nanoparticles which makes it suitable for multipurpose applications and highly stable.

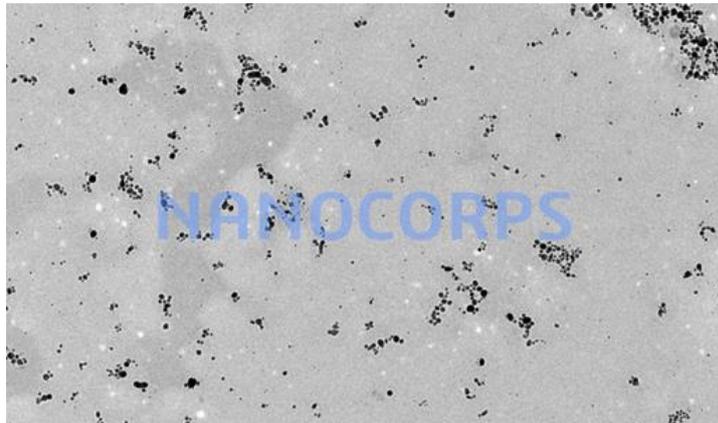

Non-Flammable

Highly stable

Long lasting

Antiviral

Antimicrobial

Electron Microscope image of silver nanoparticles additive

Nano silver colloid drastically improves the general properties of disinfectants:

- Imparts long lasting effect
- Works against a wide range of microbes, fungus and viral agents.

Composition:

Silver Nanoparticles
Hydrogen Peroxide
Alkyldimethylbenzylammonium chloride
Inert stabilizers
Fragrance
Aqueous base

CAS number	7440-22-4
APS	10-60 nm
Solvent	Water
Phase	Liquid
Grade	Household

Safety Measures: Keep away from the reach of children. In case of contact with the eyes, flush the affected eye with fresh running water and seek medical attention immediately if the problem persists. **This product is not for human consumption and internal use.**

Important features:

- Works at room temperature, no need for heating and cooling.
- Effective against a broad range of microorganisms.
- Contains no hazardous ingredients.
- Eco friendly.
- Applicable for all types of surfaces.
- Effective even under short contact time.

Storage: Should be stored in a dark container in cool and dry place. It should be kept away from sunlight and heat.

Application:

- Can be used as surface disinfectant for all kind of surfaces at the workplace, open areas, etc.
- Can be used for furniture surfaces such as table tops, chairs, sofa, etc.
- Floors, walls, and other surface areas can be disinfected.

General Direction for use: Keep the bottle upright and spray from 15 – 20 cm away from the surface. Leave the solution on surface for 5 – 10 minutes and the wipe it clean. Safe for use on all types of surfaces, except for mild steel.

Packaging:

500 mL sprayer bottle, 1 L, and 5 L refill bottle. Customized bulk packing is also available.
